

Quick Guide to Bisphenol-A in Baby Bottles¹

| AVOID Plastic baby bottles made from polycarbonate plastic containing bisphenol-A | CAUTION <ul style="list-style-type: none"> Plastic baby bottles may be polycarbonate plastic containing bisphenol-A or plastic containing polypropylene² <u>OR</u> <ul style="list-style-type: none"> No information provided by manufacturer | SAFE Plastic baby bottles made without bisphenol-A |
|---|---|--|
| Avent | Ansa (polypropylene) | Evenflo GLASS bottles |
| Dr. Brown's/HandiCraft | Gerber (polypropylene) | Medela (polypropylene) |
| Evenflo PLASTIC bottles | Playtex (polypropylene) | Sassy (polypropylene) |
| First Years | Regent Baby Products/BabyKing—no info | |
| Munchkin Inc. | | |
| Umix | | |

¹ Information obtained through direct survey of manufacturers conducted January through March 2005.

² Bottles made by some of the listed manufacturers either contain bisphenol-A or polypropylene. For example, Gerber produces some bottles that are made from polycarbonate plastic containing bisphenol-A and produces some bottles that contain polypropylene. While the polypropylene bottles are deemed safe, often a lack of labeling prevents consumers from discerning whether they have purchased a bisphenol-A bottle or polypropylene bottle.

Quick Guide to Phthalates in Toys & Childcare Products³

| <p>AVOID</p> <p>Products may contain phthalates</p> | <p>CAUTION</p> <ul style="list-style-type: none"> No phthalates in mouthing products for small children but other products may contain phthalates <p><u>OR</u></p> <ul style="list-style-type: none"> No information provided by manufacturer | <p>SAFE</p> <p>No phthalates in any products</p> |
